PREFACE

THE following pages have grown out of twenty years' experience in the double ministry of physical healing and Christian teaching as a medical missionary. Dealing constantly with the two series of phenomena, it is perhaps not unnatural that they should have been closely associated in the thinking of the writer, and he has come to believe that the one has much to contribute to the interpretation of the other.

These Bible studies originally appeared under the title "The Physiology of the Spiritual Life" in "The Biblical World," and are here reproduced by the courtesy of its Editor.
