PREFACE.

THE attempt is made in this volume to present, in substance, the argument of two of the masterpieces of German philosophy contained in the works of Hegel. The limitations of space necessary to be observed have compelled the author to abstain mainly from comment or criticism, whether defensive or offensive, on the doctrines expounded.

Passages translated from Hegel will be generally recognized by the quotation-marks in which they are enclosed.

GEO. S. MORRIS.

SEPTEMBER, 1837.

CONTENTS.

Part First.

THE PHILOSOPHY OF THE STATE.

INTRODUCTION.
