PREFATORY NOTE.

In the present state of Europe, when scientific life is everywhere suffering from divisions, intellectual and economic, consequent upon the war, the Danish Government, realising the duties of a neutral and of a collaborator in the society of nations, deserves our thanks for the creation of the "Rask-Oersted Foundation", whereof the object is to contribute something towards furthering international co-operation in matters scientific. A munificent contribution on the part of the Council of the Foundation and the goodwill of Coptic scholars of various nationalities have made it possible to arrange for the issue of a series of Coptic texts — for the most part unpublished — which will, I trust, be welcomed by that small circle for whom the Coptic language and the additions it has to offer towards our knowledge of early Christianity are of interest.

H. O. Lange.
