FOREWORD

THIS little book does not profess in any way to supplement the volume upon *Celtic Religion* already contributed to this series. It merely aims at calling the attention of the general reader to the mythology of our own country, that as yet little-known store of Celtic tradition which reflects the religious conceptions of our earliest articulate ancestors. Naturally, its limits compel the writer to dogmatise, or, at most, to touch but very briefly upon disputed points, to ignore many fascinating side-issues, and to refrain from putting forward any suggestions of his own. But he has based his work upon the studies of the leading Celtic scholars, and he believes that the reader may safely accept it as in line with the latest research.

C. S.
