EDGAR SALTUS

**THE ANATOMY
OF NEGATION**

By the same Author.

THE

PHILOSOPHY OF DISENCHANTMENT.

CROWN 8vo, GILT TOP.

"Mr. Saltus is a scientific pessimist, as witty, as bitter, as satirical, as interesting, and as insolent to humanity in general as are his great teachers, Schopenhauer and Von Hartmann."—*Worcester Spy*.

"The author has brought to his part, which was to show the principles of pessimism according to their greatest exponents, a treatment whose unique quality is an attractiveness of style that commands attentive reading of what in itself is otherwise a most difficult, if not a disagreeable study. The style is original and brilliant, and illustrative of rare art as an essayist. . . . It contains the gentlest satire and humour, but it is deep, searching, critical, and clearly expositive."—*Boston Globe*.

"Mr. Saltus argues his case well, and casts himself with a fine literary spirit into the subject. It does not read like a lament over life so much as an eulogy of death, and we are ready to ascribe to him the sentiment he quotes from Pascal, that 'he who writes down glory, still desires the glory of writing it down well.' Mr. Saltus has written as though he expected to live for ever, at least in literature. He has a graceful style and a keen analytical mind; he has studied his theme with great ability, and presented it with almost startling attractions."—*Providence Telegram*.

"If it is ever heavy, it is only with the weight of wit."—*New York Evening Telegram*.
