That They Saw that Gold and Silver Coins should Always Bear Substantially the Same Ratio to Each Other as Their Bullion Values.	
That They Tried to Accomplish This by Re- coinages when Market Values Changed.	
CONCLUSION	172
That This Ratio can be Maintained Conveniently by Having a Standard Silver Coin of the Same Weight as a Standard Gold Coin, and Simply Changing, when Necessary, the <i>Number</i> of These Silver Coins to be the Just and Legal Equivalent of the Gold Coin.
