PUBLISHER'S PREFACE.

THOUGH proverbially "the noblest of animals," the horse becomes of value to man only as he is subdued, trained, and educated. Under proper treatment and management he becomes tractable, intelligent, serviceable, and devoted to his master. The author of this volume has established a world wide reputation for training and educating horses. Long practice and experience have brought his methods to such a state of perfection as to not only challenge the admiration, but to command the regard and gratitude, of all lovers of horses. This volume teaches the reader how to put these methods in practice. Under its directions every one, man and woman alike, can acquire the art of mastering horses.
