## PREFACE.

---

THE principles of Rating, though founded on statute, are to a great extent the outcome of the judicial decisions of nearly three centuries. Those decisions have somewhat fluctuated from time to time, and though the author's object has been simply to present a statement of the law as it now exists, it has not always been possible to do so satisfactorily without to some extent tracing the course of its development. He has endeavoured to combine a lucid explanation of the principles of Rating, with such an arrangement of the subject as will facilitate reference to any required point.
