TABLE OF CONTENTS.

ROAD DUST—ITS CONTROL AND PREVENTION—

Origin. Limestone dust. Motor-car effects, as stated by Institution of Civil Engineers (of Great Britain); by the U. S. Office of Public Roads; by the Massachusetts Highway Commission; by the Massachusetts Highway Association; by the Department of Roads and Bridges of France. Need of Maintenance. Conditions, and methods of prevention, in England; in France; in the United States. (1 illustration) Page 9

MOISTURE—

Water as a dust preventive. Sea-water. Calcium chloride: origin; methods of use; details; results; cost. Akonia. Lymanite. Fitzsimmons patent dust-layer. Conclusions. Page 18

OIL EMULSIONS—

Summary. Various oils used. Objections. Methods: Cook's emulsion; Westrumite, in England, in United States, in France, and in Germany. Westrumite 2. Pine-oiline. Coudrogenit. Apulvite. Sandisize. Crompoid D. Dustoline. Terracolia. Pulvicide. Ermenite. Hahnite. Rapidite. Mechanical emulsifier. Conclusions. Page 24

OILS—

Summary. Crude petroleums: of the United States, Pennsylvania, Ohio, California, Texas, Kentucky, Indian Territory; of Russia; of Austria; of Borneo. Residual. Asphaltic.

TABLE OF CONTENTS.

Slow distillation. Pipe line for California oil. Causes of failures. History: first use. Oil on stone roads: at Cranston, R. I.; at Liverpool, England; at Sidney, Australia; at Jackson, Tenn.; at Pasadena, Cal.; at Bayonne, N. J.; at Chicago, Ill.; at Beverly, Mass.; at Newton, Mass.; New York. Oiled earth and sand roads: in California; in Eastern States. Substitutes for California asphaltic oils. Methods: petrolithic; rolling tamper. Cheap rural oiled roads. Oiled gravel roads. Oiled broken-stone roads. Repairs of oiled roads. Asphalt-oilene. Asphaltine. (1 illustration) Page 37

COAL-TAR PREPARATIONS—

Summary. Refined tar: Heating-kettles; uniformity. Opinions: of Massachusetts Highway Commission; of Thos. Aitken, M. I. C. E.; of French road engineers; of Logan Waller Page; of Charles W. Ross. Methods: Success dependent upon four conditions. Failures and their reasons. History. Tar-spraying machines: competitive trials. Quality: Importance; characteristics; tests; uniformity. Tarvia "A." Clare's patent Tar-Compo. Methods: Cleaning and scraping; heating; spreading; covering; finishing; cost. Tarvia "B," or cold treatment: Sprinkling; cost. Tarvia on Massachusetts roads; in parks; at Lynn; at Wayland; at Newton. Penetration. On Rhode Island roads: at Tiverton. Conclusions. Appliances: "White" machine. (8 illustrations) Page 63

TAR-SPRAYING MACHINES—

"Aitken's patent pneumatic tar-sprayer": description; method; on new macadam; cost; use on old surface; details; cost. The "Tarspra": description; method. "Lassailly-Johnston patent tar road-binder": description; method; results in France and England. "Thwaite anti-road-dust machine": description; method; cost. "Tarmaciser": description; method. Conclusions. Page 89

TAR-MACADAM—

Summary. Various forms. History. Hand mixing. Machine mixing. Methods in England: at Grimsby; at Nottingham; at Gainsborough. Tarmac: at Newark, England;

TABLE OF CONTENTS.

objections; methods; extent of use; comparative costs. Tarred crushed stone: kinds of rock; methods; surfacing old roads; poor method; comparative costs at seven places in England. The "Gladwell" system: summary; methods; cost; opinions. Tar-macadam in United States and Canada: summary; opinion. Methods and costs: in Rhode Island; in Canada. Comparative costs in Massachusetts; improved methods.

Page 98

ROCK-ASPHALT MACADAM.—

Summary. Sources of supply. Limitations of use. Methods: in Little Rock, Arkansas; details; cost. In Bowling Green, Kentucky; description of material; methods; results; cost. Use in "Gladwell" system. Sheet rock-asphalt; methods; cost. Binder for macadam.

Page 121

BITULITHIC PAVEMENT—

Summary. Characteristics. Opinions: of George W. Tillson, President of American Society of Municipal Improvements; of Massachusetts Highway Commission; of Chicago South Park Commission; expressed in the 1902 and the 1906 editions of "City Roads and Pavements." History: growth; extent; imitations; methods; Semiportable paving plants; description; views and key. Cost. (6 illustrations)
