**PLAN OF AN
INSTITUTION DEVOTED
TO LIBERAL EDUCATION**

PLAN OF AN INSTITUTION

DEVOTED TO

for LIBERAL EDUCATION.

*"Ist's Gotteswerk, so wird's bestehen,
Ist's Menschenwerk, wird's untergehen."*

NEW YORK:

S. W. GREEN'S SON, PRINTER, ELECTROTYPEN AND BINDER,
74 & 76 BEEKMAN STREET.

1881.

NOTE.

The following plan was sketched to indicate the possibilities of a large school devoted to liberal education and located in one of our large cities. The plan is applicable to any large graded academy or private school, situated where five hundred or more pupils can be obtained, who live within a convenient distance of the school building. With slight modifications it will apply to our public graded schools in large villages and cities. The sketch is printed at the request and at the expense of friends.

PLAN OF AN INSTITUTION
DEVOTED TO
LIBERAL EDUCATION.

OBJECTS OF THE INSTITUTION.

PRIMARILY: LIBERAL EDUCATION, or a symmetrical and harmonious development of the individual boy or girl, in all their capacities—physical, intellectual, moral and spiritual.

INCIDENTALLY: TECHNICAL EDUCATION, or an unsymmetrical and inharmonious development of the individual; a preparation for a special course of study or for a special profession, trade or occupation. Examples of special or technical courses are—

The Classical Course, with a bias toward the Latin and Greek classics and the abstract sciences. This course prepares for college.

The Scientific Course, with a bias for the natural, the abstract and the applied sciences. This course fits a young man for a Scientific School or for a special occupation.

The Business Course, which is largely elective. Here the demands or tastes of each individual will determine his bias in school and in after-life.
