Applied Econometrics*

HON. ROBERT G. ALLEN
of Pennsylvania

HON. THOMAS R. AMLIE
of Wisconsin

HON. JERRY VOORHIS
of California

GEORGE B. GALLOWAY
*Field Representative
National Economic and Social
Planning Association*

IRWIN S. JOSEPH

JOSEPH M. LURIE

STERNE MORSE

SAM D. SCHEARER

The Temporary National Economic Committee is greatly indebted to these authors for this contribution to the literature of the subject under review.

The status of the materials in this volume is precisely the same as that of other carefully prepared testimony when given by individual witnesses; it is information submitted for Committee deliberation. No matter what the official capacity of the witness or author may be, the publication of his testimony, report, or monograph by the Committee in no way signifies nor implies assent to, or approval of, any of the facts, opinions, or recommendations, nor acceptance thereof in whole or in part by the members of the Temporary National Economic Committee, individually or collectively. Sole and undivided responsibility for every statement in such testimony, reports, or monographs rests entirely upon the respective authors.

(Signed) JOSEPH C. O'MAHONEY,
Chairman, Temporary National Economic Committee.

TABLE OF CONTENTS

	Page
Letter of Transmittal.....	ix
PART I	
RECOVERY PLANS—AN ANALYSIS	
Preface.....	3
CHAPTER I	
Major types of recovery plans and their economic background.....	6
Summary of major types of recovery plans.....	6
A Framework for the Plans: the Economic Mechanism They Premise.....	7
Role of law, custom, and working rules.....	7
Private ownership of land.....	8
Government sanction of selected types of business organization.....	8
Competition or administration as the instrument for fixing prices.....	9
Type of monetary mechanism postulated.....	12
A mechanism permitting income recipients to diversify their demand for goods.....	13
A mechanism permitting income recipients to postpone their demand for goods.....	13
How the power to postpone demand arose.....	16
Historic unconcern with the aggregate demand function.....	18
CHAPTER II	
Monetary revision: Governmental injection of new purchasing power.....	20
Government spending: Problems and methods of financing.....	20
Government spending financed by borrowing.....	21
"Pump-priming" proposals.....	21
The Deane plan.....	23
Government-sponsored lending.....	24
Direct Government loans.....	24
Government insurance of private loans.....	25
Government loans to support debt structure.....	26
Government spending for relief.....	28
Systematic "compensatory spending": Capital outlays to offset deficiencies in private spending.....	28
Basis of spending: High capital-goods activity necessary for prosperity.....	29
Basis of spending: Private investment opportunities functionally inadequate.....	31
Basis of Spending: Continuous growth of debt necessary for industrial expansion.....	33
Basis of spending: Money savings must be converted into physical savings.....	34
"Money is always invested".....	35
Basis of spending: Public works are desirable for their own sake.....	36
Limits beyond which deficit financing leads to authoritarian price control or inflation.....	38
Interest burden of a heavy compensatory-spending program.....	39
Summary: Appraisal of compensatory spending—its justification and limitations.....	40

	Page
Monetary revision—Continued.	
Government spending financed by taxation.....	41
Effect on interest rates and utilization of private funds.....	43
Limitation of the plan to tax current savings.....	43
The "Townsend plan".....	44
The "Ham and eggs plan".....	46
Government spending financed by creation of "costless money".....	47
Argument that the quantity of money is inadequate.....	48
Argument that money is a token valueless in itself which only the State should create.....	50
Evolution of money from wealth mediums to certificates of indebtedness.....	50
The nature of "dollars" and "bank loans".....	54
Effect of "costless money" on savings, the price level and Gov- ernment credit.....	59
"Social credit" as a "costless money" plan.....	61
CHAPTER III	
Monetary revision: Stimulation of private spending of idle funds.....	64
Taxing money into circulation.....	64
"Stamped scrip".....	66
A Federal tax on bank deposits.....	67
Revenue possibilities of a tax on deposits.....	69
Effect of a tax on deposits upon entrepreneurs.....	70
The nature of interest.....	72
Interest rates under a tax on deposits.....	74
Effect of a deposits tax upon the supply of money.....	77
A tax on unspent portions of annual income.....	78
A tax on unused depreciation reserves.....	79
"Incentive taxation": Tax pressure on all the factors of produc- tion.....	80
Effect of a tax on idle money on the distribution of income..	82
Effect of incentive taxation on monopoly prices.....	84
Effect of a tax on idle money on the price level.....	86
Motivation of private spending by "restoring confidence".....	86
Lightening the social controls over capital.....	87
Governmental insurance of business solvencies.....	91
Publicity to instill confidence.....	91
CHAPTER IV	
Monetary-institutional revision: Abolishing or penalizing debt as a form of contract.....	92
Interest payments made uncollectible.....	92
The debt instrument and hoarding as expropriatory tools.....	93
Taxation of all forms of debt instruments.....	96
Conclusion.....	98

PART II

PLANNING FOR ABUNDANCE

	Page
Remarks of Hon. Robert G. Allen.....	103
Remarks of Hon. Thomas R. Amie.....	109
Monopoly Control by Congressman Jerry Voorhis.....	119
H. R. 7504.....	129
