# VIN MARIANI

Careful testing in Hospitals, Clinics and private practice, during nearly thirty years, has convinced the most eminent Physicians that "Vin Mariani" deservedly holds its position as

"The Standard Preparation of Erythroxyton Coca."

The only Coca preparation endorsed by the Members d'Academie de Medicine of France.

Used in Hospitals, Cliniques, and Public Institutions throughout Europe.

Invariably uniform in its results, attested to by every physician who has given it a thorough trial.

As a strengthener of the nervous system with especial good effect on the respiratory and digestive organs, it is pronounced unequalled.

H. Libermann, M. D., Surgeon-in-Chief, French Army, writes:—"By mixing a wine-glassful of "Vin Mariani" with half a glassful of boiling water, sweetened to the taste, makes a grog of exquisite flavor, rendering the greatest services whenever an immediate effect is desired in severe cases of cold attended by convulsive coughing.

In the recent epidemic of influenza in France "Vin Mariani" has been "The Tonic" absolutely relied upon by the Medical Profession in general. (Besides the medical press, see Paris "Figaro" Dec. 12th, 1889 and New York "Herald" Dec. 25, 1889).

Physicians desiring to use our preparation are requested to specify VIN MARIANI. To familiarize physicians with our bottle and label, we present fac-simile herewith, to avoid errors.

Per one-half doz. bottles \$6.00.  
Per one doz. bottles \$12.00.

TREATISE, fifty-three pages, with detailed description, formula, dose, etc., (translated from the French), will be sent gratuitously and post-paid to any Physician mentioning this Journal.

Correspondence from Physicians is respectfully solicited.

**CAMM'S EMULSION**  
**PURE NORWEGIAN COD - LIVER OIL.**

—AND—  
**Hypophosphites of Lime and Soda, with Iron.**

We claim superiority for CAMM'S EMULSION, in the fact that the ingredients of its manufacture are purer than those generally used, AND PARTICULARLY, THAT WE AVOID THE USE OF ALL ALKALIES; the hypophosphites being the only alkaline substance that it contains. The so-called emulsions which are so much in use, are only LIQUID SOAP—made by the addition of a strong alkali to the oil, by which a smooth, handsome mixture is produced, but which has no therapeutic property whatever, further than SOFT SOAP made in the ordinary way. We use no alkali at all as an emulsifier, but PANCREATINE instead, and only enough of that to partially dissolve the fat, on the principle of assisting the stomach, and not to digest the oil before it reaches the stomach. The oil globule is left intact and separated from the rest of the mixture, but all the ingredients can be thoroughly incorporated into a homogeneous mixture, by slight agitation; and the therapeutic properties are not sacrificed to pharmacy. We intentionally make this mixture in this way, because we believe it is best; and this must be apparent to the intelligent physician, even if some pharmacists do not appreciate it. The salts are thoroughly dissolved, and there is no deposit or inert sediment of any kind in the bottom of the bottle.

D., Pres. of the Cincinnati Medical Society, Physician to the Cincinnati Hospital, etc., etc., read a paper upon "The Acid Salts of Phosphorus," before the Cincinnati Medical Society, April 9th, 1889, in which he says: "There has lately been placed upon the market a compound containing a number of the acid salts of phosphorus, which recommends itself to the profession by intrinsic merit, as a remedy, by its comparative cheapness and by its convenience of administration. Prepared by the Provident Chemical Works under the name of Crystalline Phosphate."

**Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor-Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.**

One of the most widely known physicians in the country, residing in Washington, says:

"The elegance of the formula, the small dose required, and its potency go far to recommend the Tonic to the profession in that large class of neuroses, so common among the brain workers in this country."

A well known physician of Chicago, in practice since 1859, says:

"It will be a revelation to most physicians. I have found it peculiarly adapted to the mentally overworked Public School teachers, as well as to the worn out business man."

A Philadelphia physician says:

"Your tonic is a noble remedy. Some of my patients call it the "Elixir of Life." In Atonic Dyspepsia and as an aphrodisiac it cannot be excelled."

A Baltimore physician, whose Diploma dates from 1825, says:

"Your combination I find vastly more effective than any tonic I ever used. It furnishes a most powerful evidence of the vastly increased power of medication by combination and judicious pharmaceutical preparation."

While an Ohio physician says:

"I have been in the profession since 1841, and must frankly say have never been much inclined to run after strange gods, but this new manipulation and combination pleases me."

The above and many similar letters from the profession can be examined at our office. Over 13,000 physicians in New England and the eastern Middle States are prescribing the Tonic regularly.

## Dr. McIntosh's Natural Uterine Supporter,

Has been used for the last twenty years, and is the only one that has given perfect satisfaction. Every indication of Uterine Dilacement is met by this combination. One of the many reasons which recommend this Supporter to the physician is that it is self-adjusting; the patient can remove it at will, and replace it without assistance.
