INTRODUCTION

This attempt to bring together the titles of books and pamphlets including a few manuscripts and magazine articles dealing with Williams college, was started in 1907 at the suggestion of Mr. James I. Wyer, to be submitted to the New York State Library School as the bibliographic thesis in partial fulfillment of the requirements for the B.L.S. degree.

The catalogued and uncatalogued material in the Williams College Library forms the basis of the bibliography. It has been examined in detail. The Berkshire Athenæum, Boston Public Library, Library of Congress, Massachusetts Historical Society Library, Massachusetts State Library, New York Public Library and the New York State Library have been searched for additional data. The subject readings under which the material is grouped are those indicated in *Dewey's Decimal Classification* in the section for colleges and universities.

The incompleteness of the collection covered by this bibliography is apparent to no one more than it is to the compiler. But with this very fact in mind it is published that it may serve to indicate to persons seeking such information what printed matter is at hand regarding the various phases of Williams college. But, moreover, it is issued with the sincere hope that the collection will be made more nearly complete and be increased by gifts of publications of all kinds, class and alumni reports and other memorabilia, either in manuscript or in print, relating in any way to the college, its officers, alumni and students. It is intended that all such records shall be carefully preserved and systematically arranged in the College Library, in order that they may be available to the Alumni and to all who are interested in the history and life of the college.

It is a pleasure to acknowledge the kind interest of many persons in this bibliography. To two gentlemen especially I tender my warmest thanks. Mr. Herman Henry Bernard Meyer, Chief Bibliographer of the Library of Congress, has given me several valuable suggestions. My esteemed friend, Dr. Leverett Wilson Spring, D.D., Professor of English Literature, *Emeritus*, in Williams college, has read the manuscript and in this way has brought to my researches the benefit of his life-long studies in the history of Williams college.
