NOTE.

The books described in the accompanying catalogue comprise the Library of a gentleman who has devoted many years and a large expenditure of means in accumulating it.

The collection, as a whole, is one of unusual excellence and interest. It is seldom, indeed, that a Library so perfect in the essentials requisite for a gentleman is placed at the disposal of the public. In the number and range of desirable books, in the choice of editions, in the careful selection of copies, the judicious and often costly bindings, and the perfect condition of the whole, it has seldom been equalled.

The Library is particularly strong in standard authors, in the department of fine arts, and comprises all the most notable art publications, both old and new; galleries and collections of prints, etchings, drawings, and standard treatises in English, French and German—all being in the finest possible condition, a considerable number of which could not easily be duplicated, with others that are absolutely unique. The prices at which the books are offered are very reasonable, in many cases from twenty-five to fifty per cent. below their original cost, with the object of inducing a speedy sale.
