ILLUSTRATIONS

	Page
Modern Indian mother and child	Frontispiece
Before irrigation came	2
The irrigated lands in the West are in black	3
Choice apples replace the sagebrush of yesterday	4
Oranges born of irrigation	6
But for irrigation the site of the Mormon Tabernacle in Salt Lake City would be barren desert	8
Los Angeles adds to its water supply	10
The mad Colorado gnaws at its banks	12
Arrowrock Dam in Idaho	13
Irrigation brings production to the desert	14
The drainage basin of the Colorado	17
The silt-eating lower Colorado	18
Hoover Dam and appurtenant works as they will appear when finished	20
The gap to be filled in by Hoover Dam	21
This sort of scene lies upstream from Hoover Dam	23
There are few more striking nature carvings than Toroweap in the lands upstream	24
Far downstream Salton Sea, 205 feet below sea level, bids for the waters of the Colorado	27
Downstream from the dam when it is completed	29
A typical fragment of the public domain	32
Cattle on the public range	33
The streams that carry the water that brings life to the arid West	34
Gala day at an Indian pueblo in the Rio Grande country	36
Buffalo on the western range	37
Waiting for water in the dry country	39
Irrigation brought to railroad lands	40
Can the States extract a profit from such lands?	42
Homes like this follow irrigation	43
Western lands yield heavy potato crops	44
Newcomers in the desert	45
Sheep on the public domain	46
Signal Hill, Long Beach, Calif., a typical American field	50
A Texas gusher comes in like this	51
The waste is great when a new well spills oil about it like this	53
Dominguez Field, near Los Angeles, with a well to each 10 acres, is a model of proper development	54
The new field at Venice, Calif., is an example of town-lot development with many times more wells than are needed	55
Oil in improvised storage often catches fire	56
Barren Kettleman Hills contain oil of immeasurable value	59
