PRINTING.

The last General Assembly appropriated thirty thousand dollars to meet the expenses of two years' public printing, of which amount about \$10,000 was paid for printing Agricultural and Fat Stock Show Reports of 1886 and 1887, Reports of the Board of Health of 1886, House and Senate Journals of 1887, and other work which should have been printed during the administration of my predecessor, but he was unable to have the work done for the reason that about fourteen thousand dollars of the amount appropriated by the Thirty-fifth General Assembly was in litigation between the Commissioners of State Contracts and the contractor for printing, which amount could not
