I BELIEVE, in English medical literature, this is the first attempt to bring together materials under the title "Diseases of the Fœtus in Utero, with an Outline of Fœtal Development." In the first instance, those I have collected were not intended for publication, therefore I hope allowances will be made for deficiencies in arrangement, references, and due acknowledgments to various authors,—not having access to my former sources of information, I am unable at present to repair these defects. Care has been taken that the opinions and statements quoted in the work come from authors whose names entitle them to credence and respect. The plan and a portion of the first part,
