FOREWORD

The volume of collected papers by the members of the Surgical Board of the Woman's Hospital is presented as the initial publication of others that it is hoped will follow and present a constant record of the scientific contributions from this source in medical literature. The publication and distribution of this volume has been made possible by the generous donation of Mrs. Frederick Ferris Thompson, whose constant interest in all things pertaining to the Hospital is as untiring as it is sincere. The papers herewith included are original contributions from members of the attending surgical staff, and with a few exceptions, have appeared in recent issues of the AMERICAN JOURNAL OF OBSTETRICS, to the publishers of which, Messrs. Wm. Wood & Co., acknowledgment is made herewith for the courtesies extended.

We trust that this endeavor will meet with the interest and appreciation of the profession and all who may be interested in this institution.

May, 1918.
