PREFACE

TO THE SECOND EDITION.

ALTHOUGH but a comparatively short period has elapsed since the publication of the first edition of this work, the numerous decisions in the various courts have considerably elucidated and, to some extent modified, the law applicable to bills of sale. To incorporate these decisions, and to make the work more extensively useful, several of the chapters have been almost wholly re-written, and a new chapter (Chapter III.) has been added. In its present form, it is hoped that this little work will be more worthy of the favourable reception accorded to the former edition.

March, 1877.

PREFACE

TO THE FIRST EDITION.

THE aim and scope of this work will sufficiently appear from the title. It is not designed to enter into rivalry with the larger works on the same subject, which are already on the shelves of the profession, but to furnish a concise and readable statement of the law affecting a form of security of daily increasing popularity and importance.

Although no pretension is made to citing all the reported cases, the author believes that every important doctrine and principle affecting bills of sale will be found stated and supported by authority.

G. E. L.
