THE OBJECT of this book is to assist beginners in reading Constitutional History, by arranging in order outlines of the growth of the most important institutions. These outlines, it is scarcely necessary to say, to be of any value must be regarded as a mere ground-plan for study in works of a far different nature, foremost amongst which naturally stands the learned History by Professor Stubbs.

I must not omit to thank those who have kindly assisted me with advice and criticism, and especially a distinguished Professor of this University to whom I am indebted for some valuable corrections.

OXFORD: *July* 1881.
