The publication of the
researches & conclusions
alluded to in the Profes-
-sory Note, will of course
depend, as to time, con-
-siderably upon my
success in securing
subject-material for
examination and other
contingencies

I earnestly hope that
the reader will be slow
to form an opinion,
till these results of
the investigation are
published

ALFRED MUDGE & SON, 24 FRANKLIN ST., BOSTON.

CONTENTS.

I. OF MATTER UNIVERSALLY	7
II. LIVING MATTER, OR BIOGEN; INTRODUCTORY,	18
III. LIVING MATTER; ITS METHOD OF DEVELOPMENT IN ANIMAL ORGANISMS	26
IV. LIVING MATTER; THE RISE OF INTELLECT,	47
V. LIVING MATTER; THE CAUSES OF THE DECLINE OF LIVING MATTER IN ANIMAL ORGANISMS; OLD AGE; DEATH	56
VI. THE ARGUMENT THAT LIFE IS FROM A CONSTANT IN NATURE	94

11.6.20. 83 1-3-80

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This not only helps in tracking expenses but also ensures compliance with tax regulations.

In the second section, the author provides a detailed breakdown of the company's financial performance over the last quarter. This includes a comparison of actual results against the budget and a clear explanation of any variances. The goal is to provide transparency and identify areas for improvement.

The third section outlines the strategic initiatives planned for the upcoming year. These include expanding into new markets, investing in research and development, and strengthening the company's financial position. The author believes these steps are crucial for long-term growth and success.

Finally, the document concludes with a summary of the key findings and a call to action. It encourages all employees to stay committed to the company's vision and work together to achieve the set goals. The author expresses confidence in the team's ability to overcome challenges and reach the next level.

PREFATORY NOTE.

THE present small volume is a *résumé* of an extended investigation into the causes of "old age" and organic death. It is furthermore designed as an introduction to a number of handbooks treating of the re-vitalization of the human organism.

The initial steps of the investigation touching the material basis of life are noted, and also such deductions and conclusions as have seemed legitimately to result from what has been done.

To counteract "old age," and death as a resultant from aging, the first step has been to inquire what are the actual physical and physiological causes of these conditions, in order that the proper remedial agencies may be determined. To this inquiry, and the answer obtained to it, the following pages are devoted.

Other and later steps of the investigation look to the removal of the causes of old-aging and death, and involve special lines of research in, —

- I. The Intimate Life of the "cells" of living matter in young and old tissues, as observed under very high microscopic power. *Published privately in 1877*
- II. Self-Renewal; the renovation of the biogen, or living matter, of aging tissues, *in situ.* *2 copies to Lane*
this m 1873

- III. New creations of vital capacity in the human organism.
- IV. Vital Armor and Vital Re-enforcement.
- V. Inflammation as an agent of vital restoration.
- VI. The Instinctive Human Hope of Immortality; its physical basis and what it portends.
- VII. Sexual Economy; the utilization of the reproductive function for the regeneration of the parent organism.
- VIII. Living to Live; the conservation of surplus vital energy, with methods for its reversion to the organism.

The investigation is directed to a practical demonstration of these theorems in vital physics.
