**PROGRESS OF
Lederle's
DIPHTHERIA
ANTITOXIN**

THE FIRST REFINED AND CONCENTRATED DIPHTHERIA ANTITOXIN
PREPARED FOR USE AMONG PHYSICIANS GENERALLY

PAST

We introduced to the medical profession Refined and Concentrated Diphtheria Antitoxin, (Gibson method), a product the preparation of which was a radical departure from established methods.

While other manufacturers have adopted the methods employed in the Lederle Antitoxin Laboratories, our Antitoxin has constantly been of a higher potency than any other on the market.

PRESENT

The Lederle Antitoxin Laboratories have adopted the method of Banzhaf (recently perfected in the Research Laboratories of the New York City Department of Health, supplementing the work of Gibson), for the further concentration and purification of antitoxic serum. This will result in the Lederle Antitoxin attaining a degree of concentration and purity never before reached by any antitoxin offered generally to the medical profession.

For the Bedridden

TWO  in ONE

To Facilitate Division of Dose

 The need of catharsis for the patient confined to bed is frequently imperative and it is desirable to produce thorough evacuations without by-effects.

 Furthermore, convenience should be suited by selecting a cathartic which will act efficiently and completely within certain determinable time limits.

 PHENOLAX WAFERS (Upjohn) produce satisfactory evacuations promptly and completely without hydragogue effect and do not add distress and nausea to other unavoidable discomforts.

℞ Phenolphthalein, 1 grain
Aromatics, 5 grains
Sugar, q. s. ad

The dose of Phenolax Wafers for adults is from 1 to 3 1-2 wafers.

ARE YOUR ACCOUNTS POSTED?

If you use **DR. J. J. TAYLOR'S PHYSICIAN'S ACCOUNT BOOK** they are *always* posted. Only *one* record of each transaction to make, and that in plain language, which will be accepted by any court as *complete evidence*. No posting to do, so simple and plain that a child can keep it.

Do you know how to collect slow accounts? This book shows you. It also collects from decedent's estates without requiring testimony. It also collects for your estate after your death. *Truly a money-getter.*

If you meet a "bluffer" on the road who asks for his account, *do you know what to do?* If called to see a dying patient who had not made his will, *do you know what to do?* These and a great many other emergencies are instantly met by this book.

Price \$1.00, pocket size, or \$5.00, desk size. Sold on merit—refund if not satisfied. Sample pages. Address

MERCK'S MERITS

In the Manufacture of

MORPHINE

THE work of Seguin (1802), of Serturner (1805), of L. Dumas and Pelletier (1805), in scientific to the highest degree. For the sake of knowledge they investigated perseveringly until MORPHINE was thoroughly defined.

E. MERCK, personally acquainted as he was with investigators, shared their enthusiasm. In addition to their erudition, he had the foresight to recognize the importance of MORPHINE to medicine, and, despite the advice of more conservative friends, he undertook the manufacture of MORPHINE as early as 1827.

The clearness of his foresight and the wisdom of his step were quickly proved by the host of other manufacturers who, after witnessing his success, could, without risk to themselves, follow MERCK'S lead.

Clinical

Chronic Catarrhal Diseases

The fundamental etiologic factor in most chronic catarrhal diseases can be found in lowered vitality—in turn the result of nutritional weakness. Consequently a chronic catarrhal process usually subsides as the organism gains adequate strength and vitality. This is the reason why

GRAY'S GLYCERINE TONIC COMP. has proven so efficacious in the various forms of catarrhal disease. It improves the circulation, promotes better nutrition and raises the vital index. As a weakened mucous membrane recovers its normal tone and resisting power, catarrhal processes invariably disappear.

is superior to all others for the following reasons:

- 1st. It adapts itself to every movement of the body, giving strong and even support.
 - 2nd. It produces warmth without irritation or sweating, as it is perfectly ventilated.
 - 3rd. In pregnancy, corpulency, tumors or other cases of enlargement of abdomen, it supports weight of body from the backbone, relieving the sinews of their overwork.
 - 4th. Its easy appliance (lace and draw on over head or feet).
 - 5th. It is cheap, durable; it can be washed when soiled, proper care being taken to cleanse in luke-warm water and dry in shade.
- In ordering give largest measure of the abdomen.

The Empire Elastic Bandage

Specially Adapted for Varicose Veins

We invite the attention of the medical and surgical profession to the various merits combined in our bandages.

1st. **Its Porosity**—The greatest in the "EMPIRE." It never causes itching, rash or ulceration under the bandage.

2nd. **Its Elasticity**, which will enable the surgeon of nurse to put it on at any required tension, and which will follow a swelling up or down, as the case may be, a feature unknown to any other bandage.

3rd. **Its Absorbent Properties**—Greatest in the Empire.

4th. **Its Easy Application** to any part of the body, not being necessary to fold over, as with other bandages, as it follows itself with equal uniformity around any part of the abdomen.

5th. **Its Self-Holding Qualities**—No bother with pins, needles and thread, or string, so tiresome to surgeons, as simply tucking the end under the last fold insures its permanent stay until its removal for purpose of cleanliness.

6th. The only bandage that is **Superior to the Elastic Stocking** for varicose veins.

Send \$1 for 3-inch by 5-yard bandage on approval.

The Empire Umbilical Truss

Is an Abdominal Supporter with Button Inserted at Naval

Is made of the same material and possesses the same merits as the Empire Elastic Bandage and Empire Abdominal Supporters, and it is pronounced by all who have seen it to be the best in the world. All our goods are sent free by mail upon receipt of price, and money refunded if not satisfactory.

The Largest Manufactory of Artificial Limbs In the World

Artificial legs and arms with improved rubber feet and hands are the most durable, natural and noiseless when in use.

They are the easiest and most efficacious to wear. The cures taken from life prove that a person wearing one or two artificial limbs is capable of performing any kind of labor.

A conductor on an eastern railroad wears an artificial arm with rubber hand. He holds tickets between his rubber finger and thumb while he punches them with his natural hand.

A telegraph operator uses a rubber hand in receiving and transmitting messages.

A farmer in the Southern States writes that he can pick as much cotton and saw as much wood in a day as any one.

A signal man in the employ of a large railroad wears one artificial leg and attends to his duties in an acceptable manner.

From our illustrated order sheet artificial limbs can be made and shipped to all parts of the world, without the presence of the patient, with guaranteed success.

Over 30,000 in use. Eminent surgeons comment: Marks' Artificial Limbs. They are endorsed by the United States and many other Governments. Received the only Grand Prize awarded to Artificial Limbs at the World's Fair, St. Louis.

A Manual of Artificial Limbs sent free; also order sheet.

A. A. MARKS

Established 56 Years 701 Broadway, New York, U. S. A.

Probilin Pills

Obviate biliary infection and stagnation
Reduce swelling and spasm of the gall-ducts
Modify calculi and favor their expulsion.
