French Readers, however elementary, have hitherto been made up of selections from authors who wrote for the French.

This little volume has been specially written for English beginners, and *there is not in the whole book a single sentence that cannot be translated word for word into English.*

Even such easy expressions as *on, en, il y a, il faut*, the compound tenses of reflexive verbs, are not to be found in the first part, although this part, as well as the second, is made up of whole and interesting stories.

It is the firm belief of the compiler that her patient labour will be of great help to young learners.
