"It is truly a delightful book, endued with the interest of romance, and possessing all the value and attraction that could be communicated to a journal of travels by an observer of the highest rank and best qualifications. No other European writer has so authentically and particularly described the domestic condition, personal character, and familiar life of the Persians; and no other recent production of the British press has been so heartily and generally commended in the reviews and magazines."—*National Gazette.*

**THE FRENCH COOK;** by LOUIS EUSTACHE UDE, Cidivant Cook to Louis XVIII. and the Earl of Sefton, and Steward to his late Royal Highness, the Duke of York. First American, from the eighth London edition.—In one vol. 12mo.

"It has often occurred to me, as something wonderful, that, amongst the vast variety of books which are to be met with, on the important subject of Religion, there should be wanted a manual for the information and direction of the Minister in his daily intercourse with sick persons and other members of his flock.

"Having been in the habit, then, for several years, of remarking this defect of instruction with regard to practical divinity, and the whole business of a Parish Priest, and having myself, meanwhile, been thrown perpetually into the most interesting and awful scenes with my own Parishioners, I determined at length to take up my pen, and to commit to paper whatever having passed under my personal observation, might be most likely to be useful to others of the same profession.

"I had no thought originally of doing more than assist my younger brethren of the clerical order, who might be appointed to the management of large parishes, without time or opportunities to prepare themselves in an adequate manner for so difficult and momentous an undertaking. But, in proceeding with my work, I began to flatter myself with the notion that I may possibly both amuse and instruct every description of readers. Many persons may be tempted, upon the recommendation of the clergy, to peruse the book; and may find unexpectedly their fancy pleased, their knowledge increased, and their hearts touched and improved."

\*. This work has gone rapidly through three editions, in England.

**SURE METHODS OF IMPROVING HEALTH AND PROLONGING LIFE, BY REGULATING THE DIET AND REGIMEN**; embracing all the most approved principles of health and longevity, and exhibiting particularly the remarkable power of proper food, wine, air, exercise, sleep, clothing, &c. in the cure of obstinate chronic diseases, as well as in promoting health and long life. To which is added, an account of the art and excellent effects of training for health, rules for reducing corpulence, and **MAXIMS OF HEALTH FOR THE BELLOUS AND NERVOUS, the CONSUMPTIVE, MEN OF LETTERS, and PEOPLE OF FASHION**. Illustrated by cases. By a Physician. First American edition, with additions.

"The subject of this book is interesting to every individual in existence; and we are disposed to think it the most useful and rational work of the kind we have met with. It contains many hints novel to us, and is altogether an admirable code of health."—*Atlas*.

"The tendency of this volume to advance the important objects which it proposes is unquestionable, and we warmly recommend it."—*New Literary Gazette*.

"No person can read it without receiving impressive hints and falling into salutary reflection. It embraces all the details of personal regimen."—*National Gazette*.
