PREFACE

It is quite a common remark that there are already too many religious biographies. This may be true; but in writing these lectures for his Bible Class the Author found that several volumes had to be mastered in connection with the study of each life, before material suitable and sufficient for his purpose could be procured.

The contacts and collisions of virtue with its opposite are as real and momentous to-day as in times past; and if only we can catch somewhat of the spirit of those great souls of bygone generations, then the study of their lives will make us of the present wiser, better, and nobler.

In the treatment of these biographies completeness has not been aimed at, multiplicity of detail has been rigidly guarded against, and controversial points have been studiously avoided.

Not from bias or bigotry of any kind has the

author confined his attention exclusively to what Sidney Smith calls "that knuckle-end of England —that land of Calvin, oat-cakes, and sulphur," but solely with the view to narrow down the vast field of biography, and so render a judicious and an adequate selection possible.

Lastly, not in the spirit of perfervid hero-worship, but with the desire to exhibit "the master-faculty of Faith" operating in the lives of eight noble Scotchmen, is the present collection now put into the hands of the Reading Public.
