HALIFAX, NOVA SCOTIA, OCTOBER, 1900.

No. 10.

"Any method of modifying cows' milk

*that aims to produce a product analogous to mother's milk
must take into account this radical difference in the nature
of the two caseines." — Chittenden.*

Human milk, while containing more solids, more sugar and fat than cows' milk, is thinner, more soluble and more digestible, simply by reason of the non-coagulable and peptone-like nature of its albuminoids.

By means of PEPTOGENIC MILK POWDER, the caseine of cows' milk is converted into a form analogous to human milk albuminoids, and all the milk constituents adjusted to the analysis of normal average breast milk. This is science applied to the imitation of nature.

The "Peptogenic" milk corresponds to human milk in chemical, physical and physiological properties—contains no foreign substance, no digestive ferment, no aid to digestion.

WHEN THE STOMACH REFUSES

food and nourishment, when intestinal or gastric inflammation render the stomach entirely unavailable, or inadequate, try

BOVININE

per rectum. It will nourish and support, and aid any form of medication.

When collapse calls for *instantaneous blood* supply—try it by sub-cutaneous injection of one part to two of neutral salt solution, and note the prompt response, a response so much more efficient and powerful than that from blood dilution. If you are interested a postal will bring our scientific treatise on topical and internal administration, and reports of hundreds of clinical cases.

LAMBERT'S LITHIATED HYDRANGEA!

RENAL ALTERATIVE—ANTILITHIC.

The ascertained value of Hydrangea in Calculous Complaints and Abnormal Conditions of the Kidneys, through the earlier reports of Drs. Atlee, Horsley, Monck, Butler and others, and the well-known utility of Lithia in diseases of the uric acid diathesis, at once instilled the therapeutic claims of **LAMBERT'S LITHIATED HYDRANGEA**, when first announced to the medical profession, whilst subsequent use and close clinical observation has caused it to be regarded by physicians generally as a very valuable Kidney Alterative and Antilithic agent in the treatment of

MCGILL UNIVERSITY, Montreal.

FACULTY OF MEDICINE. Sixty-Eighth Session, 1900-1901.

OFFICERS AND MEMBERS OF THE FACULTY.

WILLIAM PETERSON, M. A., LL. B., Principal of University.
R. F. RUTTAN, B. A., M. D., Registrar.

EMERITUS PROFESSORS.

WILLIAM WRIGHT, M. D., B. C. S., DUNCAN C. MC CALLUM, M. D., M. R. C. S.

PROFESSORS.

ROBERT CRAVEN, M. D., LL. B., Prof. of Hygiene.
G. B. GIBBARD, M. D., M. R. C. S., Eng., Prof. of Chemistry.
THEODORE ROEDICK, M. D., Professor of Surgery.
WILLIAM GARDNER, M. D., Professor of Gynaecology.
FRANCIS J. SHEPHERD, M. D., M. R. C. S., F.R.C.S., Prof. of Anatomy.
F. BELLEW, M. D., M. R. C. S., Eng., Professor of Ophthalmology and Otolaryngology.
JAMES STEWART, M. D., Prof. of Medicine and Clinical Medicine.
GEORGE WILKINSON, M. D., M. R. C. S., Prof. of Medical Jurisprudence and Lecturer on Histology.
D. F. PENNELL, B. Sc., Professor of Botany.
WESLEY MILLS, M. A., M. D., B. C. S., Prof. of Physiology.
JAS. C. CAMERON, M. D., M. R. C. S., Prof. of Midwifery and Diseases of Infancy.

LECTURERS.

W. S. MORROW, M. D., Lecturer in Physiology.
JOHN M. ELDER, B. A., M. D., Lecturer in Medical and Surgical Anatomy, and Demonstrator of Surgery.
J. J. GARDNER, M. D., Lecturer in Ophthalmology.
A. SPRINGER, M. D., Lecturer in Anatomy.
F. A. L. LOCKHART, M. B., (Edin.), Lecturer in Gynaecology.
A. E. GARRETT, M. D., Lecturer in Surgery and Clinical Surgery.
W. F. HAMILTON, M. D., Lect. in Clinical Medicine.
G. F. CAMPBELL, B. Sc., M. D., Lect. in Clin. Med.
G. F. GASHAW, M. D., Lecturer in Surgery and Clinical Surgery.

FELLOWS.

W. M. FORD, B. A., M. D., Fellow in Pathology, McGill College.

DEMONSTRATORS & ASSISTANT DEMONSTRATORS.

R. TAIT MACKENZIE, M.A., M.D., Demonstrator of Anatomy.
JAMES A. HENDERSON, M. D., Demonstrator of Anatomy.
J. W. STACE, M. D., Demonstrator of Physiology.
KENNETH CAKERS, B. A., M. D., Demonstrator of Clinical Surgery.
E. J. NEVILLE, Demonstrator of Surgical Pathology.
R. A. KERRY, M. D., Demonstrator of Pharmacy.
J. J. ROSE, B. A., M. D., Demonstrator of Anatomy.
A. E. ODE, M. D., Demonstrator of Anatomy.
A. G. NICOLSON, B. A., M. D., Demonstrator of Pathology.

The Collegiate Course of the Faculty of Medicine of McGill University begins in 1900, on Thursday, September 2nd, and will continue until the beginning of January, taught as far as possible practically, by individual instruction in the laboratories, and the final examinations will be given in the wards of the Hospitals. Based on the Edinburgh model, the instruction is chiefly bedside, and the student practically acquaints and informs the cases under the supervision of the Professors of Clinical Medicine and Clinical Surgery. Each student is required to have drawn in his degree as Clinical Clerk in the Medical and Surgical Wards for a period of six months each, and to have presented reports acceptable to the Professors, on at least ten cases in Medicine and ten in Surgery.

Above classes have been expanded during recent years in extending the University buildings and laboratories, and applying the different departments for practical work.

The Faculty gives a Reading Room for Students in connection with the Medical Library which contains over 20,000 volumes, the largest Medical Library in connection with any University in America.

MATRICULATION.—The matriculation examinations for entrance to Arts and Medicine are held in June and September of each year.

The entrance examinations of the various Canadian Medical Boards are accepted.

FEES.—The total fee including Laboratory fees and dissecting material, \$125 per session.

Courses.—The **REGULAR COURSE** for the degree of M.D.C.M., is four sessions of about nine months each.

A **DOUBLE COURSE** leading to the degree of B.A. and M.D.C.M., of six years has been arranged. **ADVANCED COURSES** are given to graduates and others desiring to pursue special or research work in the Laboratories of the University, and in the Clinical and Pathological Laboratories of the Royal Victoria and Montreal General Hospitals.

A **POST GRADUATE COURSE** is given for Practitioners during May and June of each year. This course consists of daily lectures and clinics as well as demonstrations in the recent advances in Medicine and Surgery, and laboratory courses in Clinical Bacteriology, Clinical Chemistry and Microscopy.

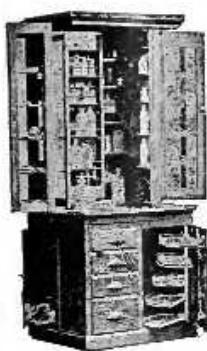

DIPLOMA OF PUBLIC HEALTH. A course open to graduates in Medicine and Public Health offering a term of from six to twelve months duration. The course is entirely practical, and includes in addition to Practitioner and Sanitary Chemistry, a course in Practised Sanitation.

HOSPITALS.—The Royal Victoria, the Montreal General Hospital and the Montreal Maternity Hospital are utilized for purposes of Clinical Instruction. The physicians and surgeons connected with these are the clinical professors of the University.

These three general hospitals have a capacity of 250 beds each and upwards of 30,000 patients received throughout the year in the labour department of the Montreal General Hospital alone, last year.

For information and the Annual Announcement, apply to

HALIFAX MEDICAL COLLEGE.

HALIFAX, NOVA SCOTIA.

Thirty-Second Session, 1900-1901.

THE MEDICAL FACULTY.

- ALEX. P. BREID, M. D., C. M.; L. B. C. S., Edin.; L. C. P. & S. CAN., Emeritus Professor of Medicine.
EDWARD FARRELL, M. D., President and Professor of Surgery and Clinical Surgery.
JOHN F. BLACK, M. D., Emeritus Professor of Surgery and Clinical Surgery.
GEORGE L. SINCLAIR, M. D., Professor of Medicine.
DONALD A. CAMPBELL, M. D., C. M.; M. B., C. M., Edin.; Professor of Anatomy.
A. W. H. LINDSAY, M. D., C. M.; M. B., C. M., Edin.; Professor of Materia Medica.
F. W. GOODWIN, M. D., C. M.; L. B. C. S., Eng.; Professor of Materia Medica.
M. A. CECILY, M. D., Professor of Obstetrics and Gynaecology and of Clinical Medicine.
MICHAEL CHISHOLM, M. D., C. M.; L. B. C. S., Eng.; Professor of Clinical Surgery and Surgery.
NORMAN F. CUNNINGHAM, M. D., Professor of Medicine.
G. DODIE MCGRAY, M. B., C. M., Edin.; Professor of Clinical Medicine and of Embryology.
JOHN STEWART, M. D., C. M., Edin.; Emeritus Professor of Surgery.
G. CARLETON JONES, M. D., C. M.; M. B., C. S., Eng.; Professor of Diseases of Children and Obstetrics.
LOUIS M. SILVER, M. B., C. M., Edin.; Professor of Physiology.
GEORGE M. CAMPBELL, M. D., Professor of Histology.
F. U. ANDERSON, L. B. C. S., L. B. C. P., Edin.; M. B., C. M., Edin.; Adjunct Professor of Anatomy.
N. E. MCKAY, M. D., C. M.; M. B., C. M., Edin.; Professor of Surgery, Clinical and Operative Surgery.
C. E. PETTER, Ph. M., Lecturer on Practical Materia Medica.
W. H. HATTON, M. D., C. M., Lecturer on Bacteriology and on Mental Diseases.
A. L. NADER, M. D., C. M., Class Instructor in Practical Surgery.
MONTAGUE A. B. SMITH, M. D., Class Instructor in Practical Medicine and Lecturer on Therapeutics.
THOS. W. WALSH, M. D., Demonstrator of Anatomy.
H. S. JAGGERS, M. D., Priv. N. Y., Lecturer on Jurisprudence and Hygiene.
R. A. KIRKPATRICK, M. D., M. B., McMillan, Lecturer on Ophthalmology, etc.
E. H. LOWERISON, M. D., Jeff. Med. Coll., Lecturer on Ophthalmology, etc.
H. D. WEAVER, M. D., C. M., Trak. Med. Coll., Demonstrator of Histology.
A. HALLIGAY, M. B., C. M., Glas., Demonstrator of Pathology.

EXTRA MEDICAL LECTURER.

- E. MCKAY, Ph. D., etc., Professor of Chemistry and Botany at Dalhousie College.
ANDREW HALLIGAY, M. B., C. M., Lecturer on Biology at Dalhousie College.

The Thirty-Second Session will open on Friday, August 31st, 1900, and continue for the eight months following.

The College building is admirably suited for the purpose of medical teaching, and is in close proximity to the Victoria General Hospital, the City Alm House and Dalhousie College.

The recent enlargement and improvements at the Victoria General Hospital have increased the clinical facilities, which are now unsurpassed, every student has ample opportunities for practical work.

The course has been carefully graded, so that the student's time is not wasted.

The following will be the curriculum for M. D., C. M., degrees:

1ST YEAR.—Inorganic Chemistry, Anatomy, Practical Anatomy, Botany, Histology, Physiology.

(Pass in Inorganic Chemistry, Botany, Histology and Junior Anatomy.)

2ND YEAR.—Organic Chemistry, Anatomy, Practical Anatomy, Materia Medica, Physiology, Embryology, Pathological Histology, Practical Chemistry, Dispensary, Practical Materia Medica (Pass Primary M. D., C. M. Exams.).

3RD YEAR.—Surgery, Medicine, Obstetrics, Medical Jurisprudence, Clinical Surgery, Clinical Medicine, Pathology, Bacteriology, Hospital, Practical Obstetrics, Therapeutics.

(Pass in Medical Jurisprudence, Pathology, Therapeutics.)

4TH YEAR.—Surgery, Medicine, Gynaecology and Diseases of Children, Ophthalmology, Clinical Medicine, Clinical Surgery, Practical Obstetrics, Hospital, Vaccination.

(Pass Final M. D., C. M. Exam.)

Fees may now be paid as follows:

One payment of	\$200.00
Two of	\$40.00
Three of	\$100.00

Instead of by class fees. Students may, however, still pay by class fees.

For further information and annual announcement, apply to

G. CARLETON JONES, M. D.,
Secretary Halifax Medical College.
