Preface

I AM rather shy about this little book.

If it were not for the kindness of some few friends whose knowledge of children far exceeds my own, it would never have seen the light.

For their encouragement and for the gift of their experiences and advice I am deeply grateful. I know that they would rather I did not mention them by name.

The thoughts which I have tried to put together have been growing in my mind for years. Some, in fact, I have quoted from articles I wrote some time ago for a magazine no longer in existence.

Perhaps my best excuse for letting this book appear is that, though I have no children of my own, other people's children have always been very good to me.

F. D. How.

VI. THE CHILD—ITS PLEASURES	112
VII. THE CHILD—ITS PATHOS	136
VIII. WAYSIDE CHILDREN	162
IX. CHILDREN'S MEETINGS	176
X. APPENDIX	187

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This not only helps in tracking expenses but also ensures compliance with tax regulations.

In the second section, the author provides a detailed breakdown of the company's revenue for the quarter. It includes a table showing sales from different departments and regions. The data indicates a steady increase in sales, particularly in the electronics department, which has contributed significantly to the overall growth.

The third section focuses on the company's financial health. It highlights the successful implementation of cost-cutting measures that have helped reduce operational expenses. The author notes that while revenue has increased, the company has managed to maintain a healthy profit margin, a testament to the efficiency of its operations.

Finally, the document concludes with a summary of the key findings and a forward-looking statement. The author expresses confidence in the company's future prospects, citing the strong performance of its core business units and the potential for further expansion into new markets.
