## PREFACE.

**I**N the making of the present Commercial Code the original intention was merely to revise the former Code. But in the course of the work so many changes have been made that the result was what is substantially a new Code, in which the German system is followed even more closely than in the former one. A knowledge of German law is therefore indispensable for any scientific translation or explanation of this Code as well as of the Japanese Civil Code.

The translator acknowledges his obligation to Prof. Henry T. Terry of the College of Law of the Imperial University for his assistance in putting the translation into a correct English shape.

Tokyo, May 1906.

DR. L. H. LOENHOLM.
