IN RECOGNITION OF HIS FRIENDSHIP,

THIS VOLUME IS INSCRIBED

WITH THE SINCERE RESPECT AND ESTEEM OF

THE AUTHORS.

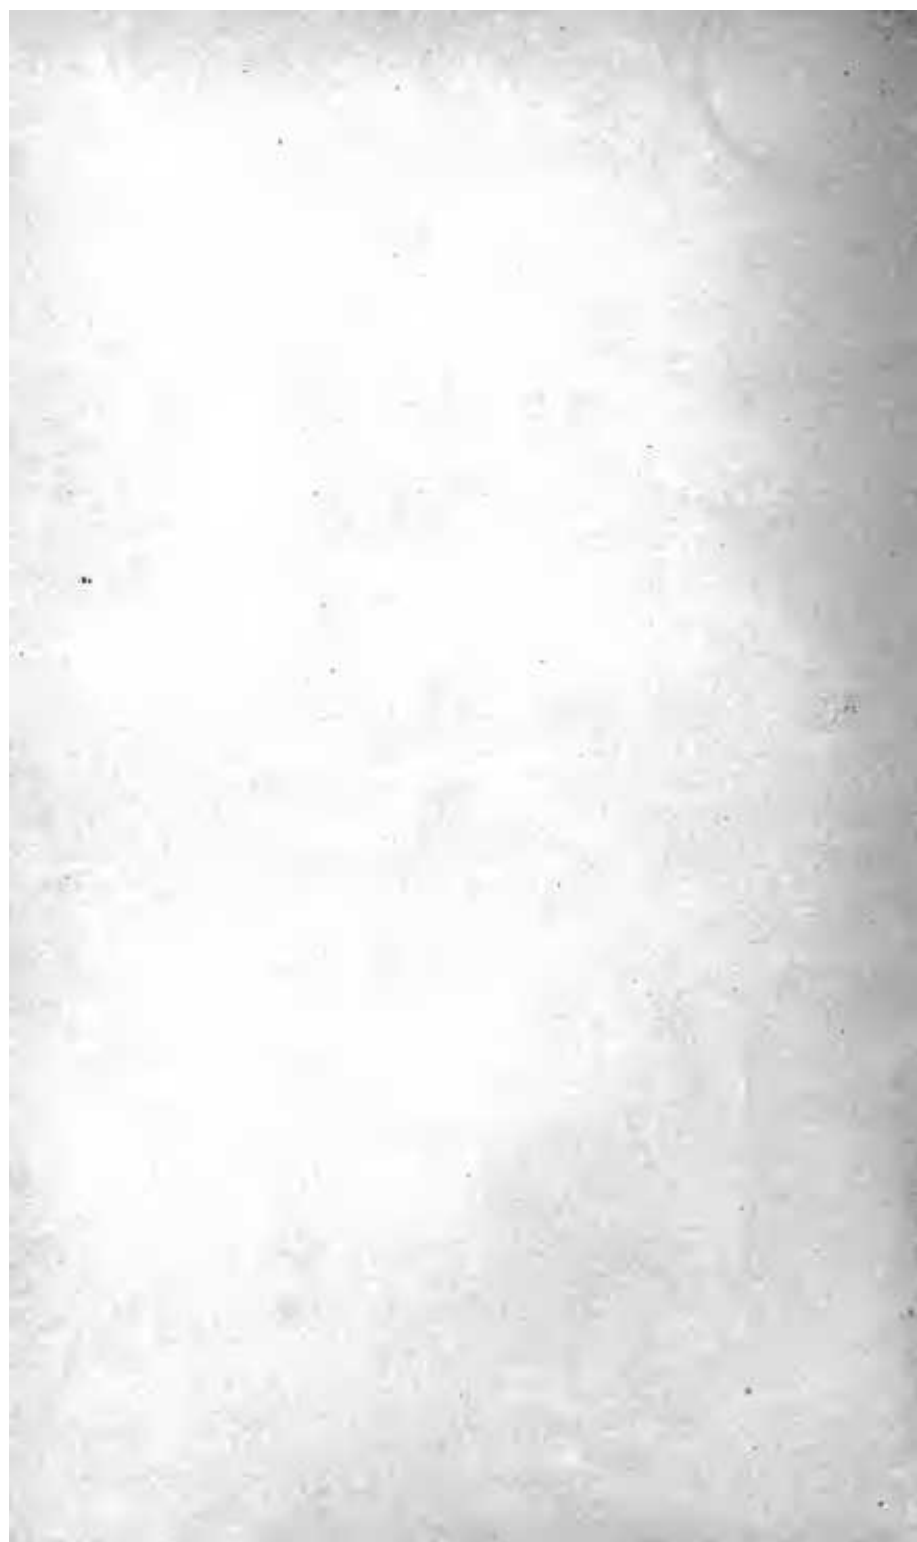

## PREFACE.

---

It has been our purpose in the following pages to place before the undergraduate and general practitioner of medicine, a brief review of the anatomy, physiology, refraction, and common diseases of the eye. No attempt has been made to treat the subjects exhaustively. Simplicity and brevity of statement have not been sacrificed to the mere attractiveness of literary finish. We have, in a word, endeavored in good faith, to make the volume conform to the purpose for which it was written, by giving it the character, directness, and practicability of clinical teaching and practice.

We have been equally and jointly engaged in the composition and arrangement of each and every chapter, and for all portions of the book we are, therefore, equally and jointly responsible.

# TABLE OF CONTENTS.

## PART I.

### GENERAL CONSIDERATIONS, STRUCTURAL AND PHYSIOLOGICAL.

PAGE

Sclera. — Cornea. — Choroid. — Ciliary Body. — Ciliary Processes. — Iris — Retina. — Anterior Chamber. — Posterior Chamber. — Vitreous Chamber. — Hyaloid Membrane. — Ligament of the Lens. — Crystalline Lens. — Anterior Capsule. — Optic Nerve. — Optic Tracts. — Chiasm. — Nerves. — Arteries and Veins. — Lym- phatics. — Muscles. — Optic Axis. — Conjunctiva. — Lacrymal Ap- paratus. — Accommodation. — Relative Accommodation. — The Metre Angle. — Test Cards and Lenses. — Field of Vision. — The Perimeter. — Colors. — Color-Sense. — Color-Blindness, . . .	9-41
---	------

## PART II.

### PHYSIOLOGICAL OPTICS.

Reflection. — Refraction by Plane, Prismatic, Spherical, and Cylindrical Lenses. — The Dioptric System. — The Ophthalmoscope. — Formation of Images by Direct and Indirect Methods, . . .	42-52
--	-------

## PART III.

### REFRACTION.

Normal Refraction. — Emmetropia. — Hypermetropia. — Myopia. — Astigmatism. — The Refraction Ophthalmoscope. — Direct Examination. — Indirect Examination. — Determination of Refrac- tion by the Ophthalmoscope. — Retinoscopy by the Plane Mirror. — Presbyopia. — Mydriatics, . . .	53-77
---	-------
