## PREFACE.

*THESE lectures were delivered in the Slade School, University College, at the request and suggestion of Professor F. Brown, and, I believe, were the first, or among the first, serious attempts in this country to point out all the various methods of making and reproducing drawings for book and newspaper illustration.*

*Since they were first delivered, now some three winters ago, courses of lectures on illustration, and classes for instruction in drawing and engraving have been started in almost all art schools.*

*It seemed to me, therefore, that a small manual on the subject might be useful.*
