## NOTICE.

---

The next edition of the Directory will be an International, and it will be issued late in 1899. It is under advisement to make some radical changes in this edition. The work was originally intended for the use of Naturalists', those who had use for and wished to make exchanges. Chemists were first added and from time to time other branches. It is now proposed to exclude Mathematicians, Physicists, Astronomers, Electricians, Photographers, etc. and possibly to make a separate edition devoted to such departments of science as are not included in the Naturalists' Directory.

Opinions as to the advisability of the change are invited by the editor.

Information in regard to deaths or change of address of names in the present edition will be thankfully received by the editor.
