## PREFACE.

---

In response to the requests of many parents and teachers, this Primary History has been prepared for children from eight to twelve years old.

In it the story of our country is told simply and truly, in a manner likely to interest youthful readers. The facts and statements can be verified by reference to the authorities cited in the Brief and Advanced Histories which preceded it.

With this series of three histories, no Southern child need remain in ignorance of the origin, growth and progress of the United States, or be taught their history in a one-sided manner.

The author hopes that all three books will receive the approval of both teachers and children.
