Tenths of a Volt

NO PERMANENT
MAGNETS USED.

Size 4 inches by 3 inches by $2\frac{1}{4}$ inches.

Price £2 2s. Solid Leather Case and Sling Strap, 10s. each extra.

Mr. W. H. PREECE writes:

WIMBLEDON, 2nd February, 1888.

I have calibrated your Voltmeter and find it very exact. It is now in regular use in my battery room and proves to be of great service. No Secondary Battery Installation should be without one. It supplies a real want.

Yours very truly,

(Signed) W. H. PREECE.

AMMETERS

Reading to 4 Amperes divided into tenths upon the same principle, and made of the same size as the Voltmeter.
