and to be destroyed

BY THE SAME AUTHOR.

I. MARIE ANTOINETTE.

Demy 8vo, 7s. 6d.

"An excellent account, frequently dramatic, always carefully studied and conscientious of the whole course of events in Paris, and the sufferings of the Royal family."—*Spectator*.

"Copious, impartial, sympathetic. It leans to mercy's side, as who should not? and it gives a familiar and intelligible picture of the Queen as a woman in her daily life, in her feelings and in her frailties, her pleasures and her sorrows, her costumes and her pranks; in fact, she stands out from this canvas as distinctly almost as if she were a personal acquaintance."—*M. A. P.*

"The authoress can tell a story in a popular style, and her work has not the superficiality which too often characterises works of this type. Her narrative is based upon the best authorities, and does equal justice to the strong and weak sides of 'the Austrian,' as poor Marie Antoinette was called by her many enemies."—*Manchester Guardian*.

"We hope to see it as a prize book for good schools."—*Speaker*.

"The book is written in plain straightforward style, eminently readable, and contains a good deal of well balanced criticism, besides showing a very wide acquaintance with the history of the period."—*Literary World*.

"The present work is an endeavour to write a popular life of Marie Antoinette which shall collect into one substantial narrative, nearly all that is to be said on that familiar subject. In this endeavour we may say at once both author and translator have to a large extent succeeded."—*Guardian*.

2. EUGENIE: Empress of the French, (Second Edition).

Demy 8vo, 6s.

"We would recommend this book very cordially to those who would know the story of the strangely romantic career of the beautiful Spaniard, who was once Empress of the French."—*Pall Mall Gazette*.

"The very completeness of its account of the ex-Empress, the impartial judgment which it passes on her character and actions, the unshrinking fidelity to truth with which it sets forth her errors and her weaknesses—these things make the greater impression on account of the genuine admiration expressed for her high qualities."—*Spectator*.

"A well written, powerful, and sympathetic summary of the events of a bright star that glittered and went out."—*Scotsman*.

"A remarkably clear and concise biography of the ambitious woman who once ruled France, who is now a sad figure—bent, pallid and sorrowful—an Empress without a throne. As a whole the book is very impartial in judgment, and in many cases distinguishes judiciously between weaknesses and serious faults."—*Literary World*.

3. NAPOLEON'S MOTHER.

Demy 8vo, 7s. 6d.

"Miss Tschudi's readable and interesting book. The figure of Napoleon's mother is one of historical dignity, and although the material with regard to her is a little slight, her life was worth writing."—*Athenaeum*.

"A sympathetic account of a very impressive career. The title of the book is happily chosen—Letitia Bonaparte devoted herself wholly to the welfare of her children, and in the nature of things, Napoleon and his brothers and sisters figure in these pages almost as prominently as the mother. The translation is pleasantly written and will commend itself to many English readers."—*Manchester Guardian*.

"As a sketch of a remarkable woman, Miss Tschudi's work may be welcomed, for it will help the world at large to do tardy justice to a character of exceptional strength."—*Saturday Review*.

"The translation is well done. The book is very readable, and though it has no pretensions to be an important piece of history, it is at least an interesting sketch of a very remarkable Mother of Kings."—*Guardian*.

"She failed to fill the contemporaneous eye. Now perspective has put her in her proper place. It is there that we see her in the present volume."—*Pall Mall Gazette*.

4. AUGUSTA: Empress of Germany.

Demy 8vo, 7s. 6d.

"It is the record of a sad and disappointed life that is described in these pages. We see a cultured, sensitive Princess thrown among uncongenial surroundings, where she is misunderstood, slighted and unloved. But throughout there is visible the pathetic figure of an ailing woman and a lonely Queen and Empress, with her husband irrevocably estranged from her, absorbed in his passion for military greatness, and dominated by his masterful Chancellor. Miss Tschudi's fascinating memoir seems to be stamped with the impress of truth, and is a valuable contribution to the history of our times."—*Daily Telegraph*.

"Clara Tschudi's book will repay perusal, not only for her study of the late Dowager Empress Augusta, but also for the side-lights it throws upon

other people who, during considerably more than half a century, were prominently engaged in 'making history' on the Continent."—*Nottingham Guardian*.

"Miss Tschudi has evinced yet again the exceptional aptitudes she possesses for this sort of work."—*Pall Mall Gazette*.

"Among the most successful popular biographers of the day is Miss Tschudi, who has written several lives of royal women. She has a real gift for conveying a vivid impression of the person about whom she is writing. She gives her virtues in full, but she also does not ignore her faults."—*Literary World*.

"There is no doubt that Clara Tschudi's biographies of Marie Antoinette, the Empress Eugénie and Napoleon's mother, though they are written in perfect simplicity of style and without pretence of appearing *important*, are more interesting than, and as reliable as, the most ponderous and scholarly work on these prominent historic figures. Miss Tschudi's latest addition to her series of biographies, is a volume (in a first rate translation) on the subject of the Empress of William I. of Germany. So little is known, even in Germany, of the *vie intime* of the Empress Augusta, that the volume before us supplies a distinct want. The story is told with a complete knowledge of the subject, and with an impartiality which is not easy for a biographer to maintain when dealing with a character arousing so much admiration, and hampered by faults, so much the result of adverse circumstances. We consider Miss Tschudi's latest work one of her best."—*Westminster Gazette*.
