ANNUAL REPORT OF THE TRUSTEES.

To the Contributors, Life-Members, Subscribers and Friends of the Bryn Mawr Hospital:

THE Board of Trustees of the Bryn Mawr Hospital present for your information their Thirteenth Annual Report, and at the same time avail themselves of the opportunity to express their sincere thanks for the constant interest and generous support of the many friends and well-wishers of the Hospital, and above all to gratefully recognize the beneficent influence of a kind Providence in its assistance in rendering successful their efforts in behalf of suffering humanity.

The following is a summary of the work accomplished during the past year:—

Total number of patients admitted	463
Total number of males	258
Total number of females	205
Total number treated in private rooms	125
Total number treated in public wards	338
Total number of free surgical patients	211
Total number of free medical patients	127
Total number of accidents treated in the house	74
Total number of accidents treated in Out-Patient Department	550
Total number of operations	201
Total number of free patients treated in Hospital	338
Average number of patients treated per day	28
Average number of days patients remained in Hospital	25.75

Attention is especially called to this summary as showing that during the current year four hundred and sixty-three patients were admitted to the Hospital—an increase of ninety over the previous year—and that five hundred and fifty additional patients were treated in the Out-Patient Department—an increase of three hundred and twenty-five over the preceding year.
