## PREFACE.

This Hand-Book of French Pronunciation is intended particularly for beginners in advanced grades. It gives in a concise form a comprehensive and clear idea of the subject, and may be used with any grammar. In order to meet the usual difficulties encountered by American students, general principles are set forth in the first chapter with numerous examples for practice on all vowel-sounds. In parts second and third, helpful hints may be found on Blending of Words and on Prosody. It is hoped that this little treatise will supply a need felt by many Teachers and Students.

L. C. BONAME.
