Preface.

The numerous calls for our cook book has made necessary the issuance of this edition, which we give to the public in a revised and enlarged form, believing it will meet with favor. A great many new recipes have been added, which are the contributions of some of our best housewives; to them and to all who have rendered assistance, we wish to gratefully acknowledge our indebtedness. It is with the hope that we have done something toward the improvement of human food, that we send this volume forth.
