### I. SOURCES

The serious Elizabethan drama began in patriotism and had a high political motive. The perils and difficulties of a nation rent asunder by bitterly opposing factions confronted Elizabeth at the beginning of her reign, and when Thomas Sackville and Thomas Norton wrote *Gorboduc*, the first regular English tragedy, their main object was to warn the English people of the danger in a kingdom divided against itself and to show the maiden queen the perils involved in uncertainty as to legitimate succession to a throne. The story was taken from British legendary history, and blank verse, destined to be the great national measure, was used for the first time in an original English play. With that steady growth of national spirit which characterized the reign of Elizabeth, developed the taste for chronicle plays dealing with the history of the nation in its formative period. The national drama grew up with the increasing pride of nation. In the defeat of the Armada this pride of nation reached full tide, and the enthusiasm found immortal expression in Shakespeare's ten history plays culminating in the drama of the hero-king who won the battle of Agincourt.
