## PREFACE

---

Mothers, you are in a great measure, responsible for the lifetime happiness of your children. Happiness is from within. To have the love of the beautiful, in nature, given to little ones is not only your duty, but ought to be your pleasure.

The mind stored with simple, dainty memory gems, so simple that the youngest mind is not burdened, is one way and a very important way, of accomplishing this end,—the love of the beautiful in nature.

Those, who through life, can see the beauty in nest building,—the beauty in the waking of plant life in spring—the beauty in the “golden days of the early fall”—the beauty in the softly falling snow, can never be unhappy, but may to the very end of life, be filled with the most intense happiness.

The teacher is the school mother. It should be your duty and pleasure to assist the home mother in her loving work of filling the minds of the little ones, with a few of these beautiful selections. Through these thoughts given to them they will see the beautiful and love it. If you accomplish this, your work has been nobly done.

To you, little children, I give this collection of memory gems because I love you.

Jessie Carr Tyndall.
