VOLUME II

British Progress in Pumps  
and Pumping Engines

BY

PHILIP R. BJÖRLING

*Consulting Engineer, Author of "Pumps and Pumps Motors;"  
"Pumps: their Construction and Management," etc.*

WITH NUMEROUS ILLUSTRATIONS AND A DIRECTORY AND CLASSIFIED LIST OF  
PUMPS AND PUMPING ENGINES IN GREAT BRITAIN

## CONTENTS

	PAGE
INTRODUCTION, DEFINITION AND SCOPE OF LECTURE	I
PUMPS WORKED BY HAND . . . . .	7
"Dando" diaphragm pump—Odourless pump.	
PUMPS DRIVEN BY WATER-POWER . . . . .	8
Henry Davey, for Mûke Mines, Japan—Undershot water-wheel Duplex hydraulic underground pumping engine by Hathorn, Davey & Co., and single-acting plunger pump by E. and H. Roberts—Double set of plunger pumps and undershot water- wheel by E. and H. Roberts.	
WIND-POWER PUMPS . . . . .	11
Solid-wheel wind engine by E. and H. Roberts—Syphon pump by E. and H. Roberts—Quadruple semi-rotary pump by Duke & Ockenden—Sectional-wheel wind engine by John Wallis Titt—Differential or bucket-and-plunger pump by John Wallis Titt—Dash wheel by John Wallis Titt—Simplex geared wind engine by John Wallis Titt.	
GAS AND OIL ENGINE PUMPS . . . . .	18
Gas engine and vertical two-throw plunger pumps by Crossley Bros.—Horizontal engine and vertical single-acting plunger pumps by Crossley Bros.—Vertical engine and single-acting vertical plunger pump by Crossley Bros.—Horizontal engine and centrifugal pump by Crossley Bros.—Oil engine and pump combined by James B. Petter—Engine and pump combined by Richard Hornsby & Sons—Grantham Waterworks pumping engine by Richard Hornsby & Sons—Horizontal oil engine and pumps by Ruston, Proctor & Co.—Horizontal oil engine and vertical three-throw pumps by Ruston, Proctor & Co.—Oil engine and centrifugal pumps by Ruston, Proctor & Co.	

## CONTENTS

	PAGE
<b>HOT AIR PUMPS</b> . . . . .	23
Rider's Hot Air Engine and Pump by Hayward-Tyler & Co.	
<b>COMPRESSED AIR PUMPS</b> . . . . .	24
Pulsating steam pump—Air-lift pumps.	
<b>ELECTRICALLY-DRIVEN PUMPS</b> . . . . .	27
<i>Centrifugal Pumps, driven direct</i> : High-lift centrifugal pump and electric motor by Mather & Platt, for Menange Waterworks, Sydney . . . . .	27
<i>Pumps driven by Single Gearing</i> : Vertical three-throw air pumps, "Edwards" type—Centrifugal pump and set of vertical three-throw plunger pumps by Hayward-Tyler & Co., for War Office for Generating Station at Aldershot . . . . .	29
<i>Pumps Driven by Double Gearing</i> : Low-lift pumps and electric motor by E. Scott & Mountain—Portable three-throw vertical pumps and motor by E. Scott & Mountain—Three-throw boiler-feed pumps by Hayward-Tyler & Co., for South Wales Distributing Co., Pontypridd . . . . .	29
<i>Pumps Driven by Treble Gearing</i> : Two sets of horizontal three-throw plunger pumps, driven by electric motor, by Hathorn, Davey & Co. . . . .	31
<i>Pumps Driven by Belt</i> : Combined electric motor and three-throw plunger pumps, by Sandycroft Foundry and Engine Works Co. . . . .	31
"Riedler" pump, driven by single reduction gear, by Fraser & Chalmers—"Riedler" differential plunger-and-plunger pump by Fraser & Chalmers . . . . .	32
<i>Electrically-Driven Sinking Pump</i> by Sandycroft Foundry and Engine Works Co. . . . .	32
Three-throw electrically-driven plunger pumps by P. R. Jackson—Vertical three-throw plunger pumps, driven by electric motor, by Andrew Barclay, Sons & Co.—Horizontal three-throw pumps by Andrew Barclay, Sons & Co. . . . .	33

## CONTENTS

	PAGE	
<b>STEAM PRESSURE PUMPS</b> . . . . .	34	
<b>I. DIRECT-ACTING STEAM PUMPING ENGINES</b>		
<i>(a) Single Cylinder or Simplex</i> : Steam fire engine, for large factories, by Hayward-Tyler & Co.—Steam pump for collieries, of the "Niagara" type, by Hayward-Tyler & Co.—"Denaby" sinking pump by W. H. Bailey—"Weir" patent direct-acting feed pump by G. and J. Weir—Vertical tandem compound feed pump by G. and J. Weir—Independent direct-acting high-pressure feed pump by Clarke, Chapman & Co.—Compound feed pump by Clarke, Chapman & Co.—Horizontal direct-acting feed pump by Clarke, Chapman & Co.—Official test of Clarke-Chapman tandem compound direct-acting feed pump, Woodeson's patent—Vertical direct-acting compound type feed pump by J. P. Hall & Sons . . . . .		35
<i>(b) Duplex Pumps</i> : Vertical duplex single cylinder boiler-feed pump by J. H. Carruthers & Co.—Vertical compound duplex boiler-feed pump by J. H. Carruthers & Co.—Combined vertical low-service duplex steam pump, vertical boiler and vertical duplex feed-pump by J. H. Carruthers & Co.—Reading Waterworks triple-expansion high-duty surface condensing Worthington pumping plant by James Simpson & Co.—Frimley and Farnboro' Waterworks, Itchell Well, triple-expansion horizontal surface condensing Worthington pumping engine by James Simpson . . . . .		42
<b>2. ROTATIVE STEAM PUMPING ENGINES</b>		
Bore-hole pumping engine by Hathorn, Davey & Co., for Kealeven Asylum—Pumping engine for Leicester Corporation Waterworks by Hayward-Tyler & Co.—"Invincible" centrifugal steam driven pump by Gwynnes, Ltd.—Powell Duffryn cross compound "Riedler" pumping engine by Fraser & Chalmers—Cross compound "Reidler" pumping engine by Fraser & Chalmers, for Rockhampton Waterworks, Queensland—"Edwards" air pump by Edwards' Air Pump Syndicate—Barnet Waterworks machinery, James Simpson & Co.—Single-acting deep-well pump by Mather & Platt—Triple-expansion pumping engine by Hathorn, Davey & Co., for Leeds City Waterworks—Test of Leeds engines by Professor W. Cawthorn Unwin—Deep-well pump by Herbert Ashley—Three-throw pumps and undertype engine by Hayward-Tyler & Robey,
