INTRODUCTION.

This number of the manual is compiled for the use of the last legislature to be convened in the present century. The early pages present the names, alphabetically arranged, of all the members of the state senate from the adoption of a permanent constitution in 1784 to the present time, including the senate elected in 1898. During this period there have been ninety-five annual sessions of twelve senators, and eleven biennial sessions of twenty-four senators. There have been 1,412 elections to the senate, and noting re-elections and contested elections it appears that 762 different persons have held seats in the senate of this state. The early pages of this volume were printed before the organization of the present senate. The name of the president will appear in the later pages.

The following table and the lists of New Hampshire men at Bunker Hill were prepared by Hon. George C. Gilmore of Manchester, N. H.

STATE SENATORS FROM 1784 TO 1900.
