PREFACE.

I HAVE often been asked to publish some of my Reminiscences, and I have much pleasure in doing so. I have undertaken the work with three objects in view:—

1. To oblige my many kind friends.
2. To inspire the mind of the public with a feeling of thankfulness for the discovery, between 1836 and 1922, of inventions and appliances which have added so much to the interest and enjoyment of life.
3. To raise money, by the sale of the book, for the Preston Royal Infirmary, which is in much need of financial assistance.

R. C. BROWN.
