**LOUIS KUHNE'S
FACIAL DIAGNOSIS**

LOUIS KUHNE'S
...FACIAL DIAGNOSIS...

"Facial Diagnosis" is essentially an ante-diagnosis,
enabling us both to foresee and fore-
stall any ailment.

ILLUSTRATED.

A free and abridged translation with notes.

INDEPENDENT MEDICAL COLLEGE.

THIS SCHOOL advocates a new and successful Method of acquiring a Medical Education and boldly proclaims itself the champion of the struggling, yet would-be, physician, and announces that any student who has attained a sufficient mastery of the art of healing to pass the searching examination of our institution, is entitled to receive its diploma, even though all his knowledge has been attained by practice and by burning the midnight oil in the solitude of his own home. We have established a system of study which bears the same relation to medicine as the Chautauqua Association does to literature, by which the diligent student may intelligently progress as rapidly as his talent will allow without reference to any time limit. Successfully establishing this idea has opened the way to a profession to many a brilliant mind whose environments were such that they would otherwise have been debarred from working in the field of medical science for the benefit of their fellow men.

The system of medicine taught is the Physio-Medical system. Founded in the United States by Dr. Samuel Thompson. Taught and practiced in Europe by Professor Kirk, one of Scotland's greatest medical reformers. Foundation principles—medicines tend to cure; poisons tend to kill. The difference clearly taught and thoroughly explained.

Students can enter at any time. Can receive instruction day time or evening the year around. Private lectures given to those desiring to advance more rapidly toward graduation. Lectures and books can be sent to students taking the course by mail. Prompt and special attention given to this department of our work.

Independent Medical College, Van Buren and Leavitt Sts., Chicago.

HARD-MOUTHED HORSES

AND PULLERS CONTROLLED WITH ABSOLUTE EASE.

RUNAWAYS IMPOSSIBLE.

This statement is now repeated by thousands who have purchased

BRITT'S AUTOMATIC SAFETY BIT.

**SAFETY
GUARANTEED**

Gold Medal,
Paris, 1889.

This Bit, by an automatic device, closes the horse's nostrils.

HE CANNOT BREATHE, AND MUST STOP.

SAFETY FROM RUNAWAYS

ABSOLUTELY GUARANTEED WITH THIS BIT.

Any horse is liable to run, and should be driven with it. By its use ladies and children drive horses men could not hold with the old style bits.

Send for illustrated pamphlet containing testimonials from all parts of the world, and

earnest and candid expressions about the **BRITT AUTOMATIC SAFETY BIT** and its resistless but harmless and humane power in subduing the most vicious horses and controlling the most stubborn pullers and chronic runaways.

The only bit in the world that is endorsed, advocated, used and sold by the Society for the Prevention of Cruelty to Animals, **THE HIGHEST AUTHORITY.**

DR. L. P. BRITT, 29 Warren Street, NEW YORK.

The Reinhold Institute of Water Cure,
60 Lexington Avenue, *New York City.*
 Apply for Circular.

Any man who pretends to heal by means of Drugs and Operations, does not possess even rudimentary knowledge of the nature of sickness, nor of its cure. — Reinhold.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in the context of public administration and government operations. This section also highlights the role of technology in streamlining record management processes and reducing the risk of errors or data loss.

2. The second part of the document focuses on the implementation of robust internal controls and risk management frameworks. It outlines the need for regular audits and assessments to identify potential vulnerabilities and ensure that organizational policies are effectively enforced. This section also discusses the importance of employee training and awareness programs to foster a culture of integrity and ethical conduct.

3. The third part of the document addresses the challenges of data security and privacy protection in the digital age. It provides guidance on how to safeguard sensitive information from unauthorized access, theft, or disclosure. This includes recommendations for implementing strong security protocols, such as encryption and access controls, as well as the importance of staying up-to-date with the latest cybersecurity threats and best practices.

4. The fourth part of the document explores the role of stakeholder engagement and communication in achieving organizational goals. It stresses the need for clear, consistent, and transparent communication with all relevant parties, including employees, customers, and the public. This section also discusses the importance of listening to feedback and addressing concerns in a timely and effective manner to build trust and loyalty.

5. The fifth and final part of the document provides a summary of the key findings and recommendations. It reiterates the importance of a holistic approach to organizational management, one that integrates financial, operational, and ethical considerations. The document concludes by expressing confidence in the organization's ability to continue to grow and thrive while maintaining the highest standards of integrity and accountability.

PREFACE.

This little book, by reason of the conciseness and completeness with which the subject is treated, no less than the revolution its appearance must make in existing methods of diagnosis and treatment of disease, is undoubtedly destined to a place among the classics of science. As the exclusive work of one man, it is an immense achievement. Such forms of disease as cancer, consumption, blindness, etc., which have, heretofore, been considered utterly incurable, and are possible of treatment only after they have gained considerable hold upon the system, can, by Louis Kuhne's Method of Facial Diagnosis be readily and effectively treated at any stage, even *previous* to their definite development.

But still another important service is rendered by this work, in enabling us to learn, from the study of ancient busts and statues, the then prevailing types of disease and disorder; and, through a knowledge of these, to read, in the down-fall of the nations suffering from them, a lesson for the enlightenment and uplifting of the civilizations of the future, whose surest foundations are laid in perfect physical health.
