DESIGNED FOR THE USE OF TEACHERS, AND PERSONS DESIROUS OF DECOMING THEIR OWN INSTRUCTORS.

### BY THE REV. E. C. TYSON, M.A.

FELLOW OF CATHABINE HALL, CAMBRIDGE, AND LATE HEAD MATTER IF THE BOYAL MATHEMATICAL SOBOOL, CHRIST'S BOSPITAL.

A NEW EDITION, ENTIRELY RE-EDITED.

By Dr. RUTHERFORD, F.R.A.S.

BOYAL MILITARY ACADEMY.

LONDON:

WILLIAM TEGG, 85, QUEEN STREET, CHEAPSIDE. 1860.

181. c. 6.

#### PREFACE.

This Key to Bonnycastle's Guide to Arithmetic contains the solutions to all the unanswered questions embodied in that excellent work. In preparing this edition of the Key, every solution has been examined with care; some faulty solutions have been corrected, others have been modified, and answers have been supplied to all the exercises which were left unanswered in the previous edition, as presenting difficulties unsurmountable without the introduction of algebraic symbols and investigations which were deemed foreign to a work on arithmetic. Some of the exercises in the Rule of Position. and in the "Arithmetical Recreations" especially, were considered beyond the power of arithmetic to solve; but to several of these, purely arithmetical solutions have been given, which, it is hoped, will be interesting to the student.

The modern method of extracting the cube root of any number has been introduced in this edition, thereby rendering the operation nearly as simple as that for the

extraction of the square root.

The Work, together with the Key, forms an excellent treatise on the science of Arithmetic, one of the most useful branches of education; and as the Key has been enriched with several improved processes of calculation, it is hoped that, jointly, they will supply an amount of information seldom met with in any of the ordinary treatises on Arithmetic.

WILLIAM RUTHERFORD.

Royal Military Academy, Woolwich.
