BY
THE AUTHOR.

PREFACE TO THE SECOND EDITION.

THE first edition of this little publication having, for some time past, been out of print, the writer has been repeatedly pressed to issue a second. In preparing it, advantage has been taken of the opportunity to adopt the advice of some medical friends, and to present a somewhat more extended view of the subject. The climatic peculiarities and natural features of the Undercliff have been touched upon; but every effort has been used to make these particulars as brief as is compatible with utility. It is hoped that the new matter which has been introduced will not detract from the more strictly medical character of the information intended, as is stated in the introductory chapter, to be conveyed in these pages.

SOUTHOLIFF COTTAGE,
VENTNOR, ISLE OF WIGHT,
December 1st, 1883.

TABLE OF CONTENTS.

CHAPTER	PAGE
