WHO'S HOOSIER

6-5-9 + 6 1946

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part outlines the various methods and tools used to collect and analyze data. This includes the use of surveys, interviews, and data mining techniques to gather insights into the organization's performance and the needs of its stakeholders.

3. The third part focuses on the analysis of the collected data. It describes how statistical methods and data visualization tools are used to identify trends, patterns, and areas for improvement. This analysis is essential for making informed decisions and developing effective strategies.

4. The fourth part discusses the implementation of the findings from the analysis. It highlights the importance of communication and collaboration in ensuring that the insights are effectively translated into action. This involves working closely with all levels of the organization to implement changes and monitor progress.

5. The fifth part concludes the document by summarizing the key points and providing a call to action. It encourages the organization to continue to invest in data-driven decision-making and to regularly review and update its processes to stay competitive in a rapidly changing market.

WHO'S HOOSIER

MAC LEAN, REV. DR. THOMAS W.—Chaplain of Wisconsin National Guard for three years and chaplain of Michigan National Guard for ten years. Found the work light and easy. Is a Knight Templar, a Shriner, an Elk, and a member of St. George's Society. Writes just as plainly when his eyes are closed as when they are open. Was born in England, but has lived in Indiana for forty years, and, therefore, deserves no blame.

MAHER, GEORGE WASHINGTON — Born Mill Creek, W. Va., December 25, 1864. Educated Indiana public schools; studied architecture, beginning 1878, under the Chicago architects, August Bauer and Henry W. Hill; completed studies in J. L. Silsbee's office; then studied in Europe. Began practice of architecture, 1888; has developed a specialty in residence and monumental work, and in shaping, architecturally, such suburbs as North Edgewater and Kenilworth, including a unique landscape effect at the entrance of the latter town.
