## ADVERTISEMENT.

---

IN preparing this American work for republication in England, it has been found necessary to make a careful revision of it, in order that the national peculiarities, by which it was strongly marked, should not interfere with the impression which its intrinsic worth was likely to make upon English readers.

In doing this, care has been taken to omit no point of real value—no illustration of any important principle; but references to social customs and habits, which were at variance with English tastes and feelings, have in a great measure been excluded, not only as unnecessary here, but as having a tendency to interfere with a due apprehension of the work in its general intention and bearing.

A. DE W.

# CONTENTS.

---
