LONDON:
BELL AND DALDY, YORK STREET, COVENT GARDEN.
1869.

250. W. 11.

LONDON: PRINTED BY WILLIAM CLOWES AND SONS, STAMFORD STREET
AND CHANCERY CROSS.

PREFACE.

THE popularity which HANS CHRISTIAN ANDERSEN so deservedly enjoys (and nowhere more than in England) as a writer for young people has induced the publishers to issue these, the later productions of his pen, in a collected form. They have mostly been composed in the last two or three years, and the greater part of them have appeared at intervals during that period in AUNT JUDY'S MAGAZINE. The translation of the first tale is by the late Miss CAROLINE PEACHEY, the rest are translated by Miss AUGUSTA PLESNER and H. WARD, Esq.

CONTENTS.

	PAGE
THE HORN BOOK	1
THE TOAD	8
THE PORTER'S SON	18

GODFATHER'S PICTURE BOOK	85

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for ensuring transparency and accountability in financial reporting.

2. The second part of the document outlines the various methods and techniques used to collect and analyze data. It highlights the need for consistent and reliable data collection processes to ensure the validity of the results.

3. The third part of the document describes the different types of data that are collected and analyzed. It includes information on both quantitative and qualitative data, as well as the various sources from which the data are obtained.

4. The fourth part of the document discusses the various statistical methods and techniques used to analyze the data. It includes information on both descriptive and inferential statistics, as well as the various tests and procedures used to evaluate the results.

5. The fifth part of the document describes the various ways in which the results of the analysis are presented and communicated. It includes information on both written and oral reports, as well as the various visual aids and tools used to enhance the presentation of the data.

6. The sixth part of the document discusses the various ethical considerations and standards that must be followed in the collection and analysis of data. It emphasizes the need for transparency, honesty, and integrity in all aspects of the research process.

7. The seventh part of the document describes the various ways in which the results of the analysis can be used to inform decision-making and policy development. It includes information on both the strengths and limitations of the data, as well as the various ways in which the results can be applied in practice.

8. The eighth part of the document discusses the various challenges and obstacles that may be encountered in the collection and analysis of data. It includes information on both the technical and human factors that can affect the quality and reliability of the data.

9. The ninth part of the document describes the various ways in which the results of the analysis can be used to improve the quality and efficiency of the research process. It includes information on both the various tools and techniques that are available, as well as the various ways in which the results can be used to inform the design and implementation of the research.

10. The tenth part of the document discusses the various ways in which the results of the analysis can be used to inform the development of new theories and models. It includes information on both the various ways in which the results can be used to test and refine existing theories, as well as the various ways in which the results can be used to develop new theories and models.
