#### Preface to the third Edition.

In presenting this entirely new and enlarged Edition to the Public, and especially to the Students reading for Competitive and other Examinations, I beg to call attention to the fact, that during a period of more than twenty years, in which I have been engaged in preparing Candidates for such Examinations, I have found it exceedingly useful, thoroughly to work out with them a Series of Papers already set at previous Examinations; this being perhaps the truest test of their knowledge, and the best mode of making them understand to what standard of acquirements they must attain to in order to be successful.

Some of the Questions in Grammar and Literature have been intentionally repeated, that the Students may thereby observe which parts the Examiners consider to be the most important.

As this little work in its present form may also be used by more advanced Pupils as a French Reader, I have every reason to hope, that the patronage, with which my books have hitherto been favoured, will not only be continued, but extended.

Hanover, Easter 1881.

La mendicité est une petite guerre à la générosité, à la sensibilité, à la patience des citoyens; il faut donc qu'un mendiant, comme un bon soldat, sache se mettre en embuscade. Ordinairement ils se postent aux endroits les plus fréquentés, mais où il devient difficile et même impossible d'éviter leurs importunités, tels que les ponts, et l'intérieur des temples; et, sur les routes, les montées, où, les chars se trouvant naturellement ralentis, ces solliciteurs ont plus de facilité pour les suivre, quand ils veulent bien se lever, car la plupart du temps ils sont assis à terre. Ils tendent la main d'une manière fort humble, et, la ramenant de temps en temps vers leur bouche, envoient des baisers à ceux qu'ils implorent. A Rome, leurs principaux rendez-vous sont le pont Sublicius et la porte Trigemina, deux endroits qui se touchent, point d'arrivée des voyageurs venant d'en deçà ou d'au-delà du Tibre; espèce de défilé où la route, resserrée entre le fleuve et le mont Aventin, force, pour ainsi dire, le passant nez à nez avec le mendiant.
