PREFACE.

In this brief biography we have endeavoured to give an impression of Cardinal Newman's mind in its main characteristics, and to provide such an objective setting and so much narrative of events as should make its development plain.

*We have, as far as possible, used materials other than those to be found in the *Apologia pro vita sua* in the hope that this little book might provide illustrations to that great book,—illustrations which hitherto have been scattered through many volumes.*

We are indebted to the writers of the books mentioned in the bibliography.
